Subject: Application for Software Developer Position

Dear Hiring Manager,

I am excited to apply for the Software Developer position. I hold a Bachelor of Technology in Information Technology and have hands-on experience in full-stack software development, cloud-based application deployment, and agile methodologies. My technical expertise includes Java, Spring Boot, REST APIs, SQL (PostgreSQL, MySQL), Spring Security, Docker, Git, and Azure.

At Magnuxet Pvt. Ltd., I engineered and maintained a cloud-based Hospital Information Management System (HIMS) for multiple healthcare branches, improving operational efficiency by 20%. I led development and testing on Azure, implemented modular architecture, and built CI/CD pipelines, reducing deployment time by 40%. I also have experience building RESTful APIs and collaborating with cross-functional teams to deliver user-friendly solutions.

Additionally, I designed and developed a cloud-based Feedback Management System, created user-friendly forms, and implemented real-time analytics dashboards, reducing report generation time from 2 hours to 10 minutes. My project work includes developing a financial management app and an AI-powered chatbot using Spring Boot, React, and Docker.

Key skills I offer:

- Java, Spring Boot, REST APIs, SQL, Docker, Azure
- CI/CD, modular architecture, cloud deployment
- Front-end (Basics): Thymeleaf, Bootstrap, React

I am passionate about delivering high-quality software solutions and am confident my background aligns well with your requirements. Thank you for considering my application. I look forward to discussing how I can contribute to your team.

Sincerely,
Rajesh
