Profile Summary

Java Developer with hands-on experience building RESTful services and web applications using Spring Boot and PostgreSQL. Skilled in Docker, Git, and Azure CI/CD pipelines. Experienced in using AI-assisted tools (OpenAI GPT-4, Codex, and Claude 3) to streamline documentation and testing workflows. Focused on writing maintainable, efficient code and advancing scalable backend systems.

Technical Skills

Programming Languages: Java, SQL (PostgreSQL, MySQL)
Frameworks: Spring Boot, Spring Security, JPA/Hibernate, REST APIs, Swagger, Lombok, Maven
Tools: Eclipse, Git, GitHub, GitLab, Postman, Docker, Azure (basics)
Front-End: React (basics), Thymeleaf, Bootstrap

Experience

- Full Stack Developer** - Hospital Information Management System (HIMS)
Basil Hut Pvt. Ltd.

Dec 2024 – Jul 2025
Chennai, TN

 - Built and maintained a cloud-based Hospital Information Management System for 7 clinics, boosting workflow efficiency by 20%.
 - Developed RESTful APIs using Spring Boot and PostgreSQL for patient, doctor, and admin modules processing 10,000+ monthly records.
 - Automated deployments with Docker and Azure pipelines, reducing release time by 40%.
 - Used GPT-4/Codex for test generation and documentation to accelerate delivery.
- Full Stack Developer** - Feedback Management System
Basil Hut Pvt. Ltd.

Apr 2025 – Jun 2025
Chennai, TN

 - Built a Feedback Management System for healthcare clients, deployed across 7 sites.
 - Developed feedback forms and analytics dashboard, increasing engagement by 30%.
 - Applied Claude 3 for refactoring and validation logic, enhancing reliability.
 - Standardized Docker setups for faster onboarding and consistent deployments.

Projects

- Webhook Inbox – Real-Time Webhook Debugger**

Aug 2025 – Sep 2025

 - Built an API testing tool (Spring Boot, PostgreSQL) to capture and replay webhooks.
 - Used GPT-4/Codex to auto-generate test data and documentation, reducing setup by 60%.
 - Implemented SSE for real-time monitoring, improving integration speed by 35%.
- EchoStreamProxy – API Proxy Tool**

Aug 2025 – Sep 2025

 - Developed a lightweight HTTP proxy handling 1k+ daily requests with event logging.
 - Used GPT-4/Claude 3 for refactoring and troubleshooting during builds.
 - Reduced failed API requests by 20% via optimized retry and timeout handling.

Education

Saveetha Institute of Medical and Technical Sciences
B.Tech, Information Technology (CGPA: 7.6/10)
Coursework: DBMS, Web Technologies, Software Engineering, Java Programming

Aug 2019 – Oct 2023
